## **Slide Fire just north of Slide Rock near Sedona**

**Flagstaff, Ariz.** – The Slide Fire, reported just before 4 p.m. today, is currently estimated to be 20 acres, burning on the north side of Highway 89 in Oak Creek Canyon near Slide Rock State Park.

Multiple firefighting units are responding, including two Hotshot crews, four engines, two helicopters, an air attack unit and Sedona Fire.

Highway 89 may close to traffic near the Slide Rock area, and evacuations are being ordered for areas just north of Slide Rock State Park. It is unknown whether there are any structures threatened at this time.

The fire is currently moving to the north and fuel treatments in the area have kept the fire from aggressive activity.

Cause is unknown at this time.
